

Call for Papers

Experimental Biology and Medicine

Official Journal of the Society for Experimental Biology and Medicine

Founded in 1903, the **Society for Experimental Biology and Medicine** (SEBM) is a not-for-profit scientific society formed to promote investigation in the biomedical sciences by encouraging and facilitating interchange of scientific information among disciplines. SEBM facilitates interaction among the biomedical sciences through the publication of *Experimental Biology and Medicine* (EBM).

EBM is a journal dedicated to the publication of multidisciplinary and interdisciplinary research in the biomedical sciences. The journal provides both research and review articles as well as meeting symposia and brief communications. Articles represent cutting edge research at the overlapping junctions of the biological, physical, and engineering sciences that impact on the health and welfare of the world's population. Topics: Anatomy/Pathology; Biochemistry and Molecular Biology; Cell and Developmental Biology; Endocrinology and Nutrition; Immunology/Microbiology/Virology; Neuroscience; Pharmacology and Toxicology; Physiology; Bioimaging; Biomedical Engineering; Bionanoscience; Genomics, Proteomics, and Bioinformatics; Stem Cell Biology; Systems Biology and Translational Research.

EBM manuscripts should be submitted online at:

<http://ebm.allentrack.net/>
