

# Corrigendum

*Experimental Biology and Medicine* 2014; 239: 169–176

Joshua K Robertson, Kestral Danzmann, Sherise Charles, Katherine Blake, Annia Olivares, Solape Bamikole, Meghan Olson and Terence J Van Raay

Targeting the Wnt pathway in zebrafish as a screening method to identify novel therapeutic compounds

*Experimental Biology and Medicine* 2014; 239: 169–176. DOI: 10.1177/1535370213514322

Authors provided information as published when submitting their manuscript. They have now recognized an omission in their article and ask for the following corrigendum text addition.

Page 172, right column, last line of Materials and Methods should include the following sentence:

The Wnt:GFP transgenic zebrafish line was kindly provided by Francesco Argenton (ref: Moro et al., *Dev Biol.* 2012 Jun 15;366)
