The original version of this article has been updated.

Acknowledgments

We thank the research staff of Human Genetics Laboratory, Center for Molecular Biology and Genetic Engineering, UNICAMP, Campinas, SP, Brazil and the Hematology and Hemotherapy Center, UNICAMP, Campinas, SP, Brazil. This research used facilities of the Brazilian Biosciences National Laboratory (LNBio), part of the Brazilian Centre for Research in Energy and Materials (CNPEM), a private non-profit organization under the supervision of the Brazilian Ministry for Science, Technology, and Innovations (MCTI). The mass spectrometry laboratory staff is acknowledged for the assistance during the experiments (MAS 20232312).
